

ABOUT US

Welcome to Easy Peasy Speech, a private practice offering pediatric speech-language therapy in the northern Pittsburgh area. We offer one-on-one therapy sessions that we adapt to meet the needs of each child and to help them meet their goals so they can effectively communicate with others. Easy Peasy Speech offers convenient options for sessions, including teletherapy sessions with our certified teletherapy Speech-Language Pathologist. Teletherapy sessions are available in PA & FL.

Our mission is to provide play-based and evidence-based therapy using a variety of activities that keep the child engaged and excited about communication. We strive to involve the families and caretakers in the therapy process, incorporate their goals in the therapy plan, and include them in an easy at-home practice plan to ensure carryover of taught speech-language skills.

At Easy Peasy Speech, we know how critical communicating and feeling heard are in this world, and we want to help the children in our community feel heard so they can express themselves with those who are most important to them.

*Consultations are 15-minutes with one of our licensed Speech-Language Pathologists.

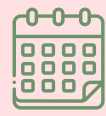

Making Speech & Language Therapy
Feel Easy Peasy Lemon Squeezy!

Why Try TELETHERAPY with Easy Peasy Speech?

Convenient! We know your schedule is busy! This option allows your child to receive consistent therapy or more frequent therapy without having one more place to run around to.

We have dedicated teletherapy-certified Speech-Language Pathologists in our teletherapy department. We are licensed to provide services to residents of PA or FL.

Right at home! Sessions would take place from the comfort of your own home. This means that your child is working on their speech goals in their natural environment, which can greatly help with carryover!

Current research shows that teletherapy for speech and language services is just as effective as in-person, and for some children, may even be more effective!

Our Services

We offer pediatric Speech and Language Therapy in person or with convenient teletherapy options.

- Articulation Therapy (speech sounds & how well you understand what your child says)
- Language Therapy (how well your child understands what others say)
- Social Skills
- Stuttering and Fluency
- Childhood Apraxia of Speech
- Reading Comprehension
- IEP Consultations
- Early Language Skills

"IT'S EASY PEASY TO GET STARTED!"

We provide one-on-one speech-language therapy sessions with individualized goals targeting your child's needs. We offer competitive private pay rates, payment packages, and flexible scheduling options that are perfect for busy families.

Our Speech-Language Pathologists are state licensed and nationally certified, holding their CCC-SLP from ASHA.
